

Gaussian Process Regression for Unknown Systematic Error H1 Sensing Function Measurement Residuals with 2020-01-03 Model

19 Measurements, fit range = 20-5000 Hz
Posterior kernel $0.316^{**2} * \text{RBF}(\text{length_scale}=0.37) + 0.949^{**2}$; Log-likelihood = 1499.882
