

LHO X End Spool Area

PCal-CPB Install Cleanroom Prep

Width available for work = ~84" or 7 ft (Distance from spool leg to cleanroom leg)

Length available for work = ~192" or 16 ft (Distance from cleanroom leg to cleanroom leg)

We could get a little more space if needed.

PEM station will be removed for assembly and install work

Cement floor will be covered with CPStat to minimize contamination once cleanroom is in place.
