

The results from two measurements are presented on the figure below:

- the first measurement, from was done on July 21. (RX and RY in green). Using this measurement, X offset 0.24 mm, Y offset 0.30 mm
- the second measurement was done on July 22 (RX and RY in magenta). Using this measurement, X offset 0.14 mm, Y offset 0.16 mm

LHO aLIGO Unit1, July 2010;
X and RY Displacement Sensors
